SPP/APR Indicator

This field refers to a specific outcome reported to the federal Office of Special Education Programs (OSEP) as part of the State Performance Plan (SPP) and Annual Performance Report (APR). The number of the indicator and a brief description of the measure are provided.

County Performance

This field shows the actual performance of the local program in regards to the indicator being measured as a percentage of the population served.

Statewide Performance

This field shows the actual performance of the entire state in regards to the indicator being measured as a percentage of the population served.

Statewide Target

This field shows the performance goal established for the state in the SPP/APR in regards to the indicator being measured.

******For each of the indicators reported **NR** denotes an item as "Not Reported" and **NA** denotes an item as "Not Applicable". Unreported indicators represent measures that are reported in the state's Compliance Agreement with OSEP and are not shown in this summary. Unapplicable indicators are items that either are new measures (in the case of targets) or measures for which data has not yet been collected.
